

Product description

Combination elements of bitumen board and a highly absorbent soft foam with an additional surface skin. The reverse is coated with an acrylic pressure sensitive adhesive.

Product properties

With its combination of materials, Hanno®-Protecto plus 75 unites structure borne sound insulation, airborne sound insulation and airborne sound absorption. The 25µ thin surface skin is resistant to soiling and splash water. The material is widely resistant to petrol and engine oil splashes and is easy to clean. The surface sealing protects from mechanical damage. Excellent ageing properties.

Applications

For the lining of machine claddings, capsules, cabins, etc.

Form of Delivery

Sheets 1000 x 1000mm 12, 22 or 32mm thick (special measurements upon request, blanks, stampings)

Processing

Only adhere it to dry, grease-free, clean substrates. Press the surface area on well. You can easily adapt the material and cut it to size with a sharp knife.

Special Instructions

Do not subject it to weather conditions.

Safety Instructions

In view of the existing data and experience, the product is not hazardous material in the meaning of the Hazardous Material Regulations and the corresponding EC directives. We recommend however that you take the same care and use the same hygiene as is customary with chemical materials.

Technical data

Colour	-	Anthracite, surface: black
Fire behaviour	FMVSS 302 DIN 75200	SE, self-extinguishing in front of the 1st measuring mark (12 mm) <100mm/min
Temperature stability	-	35°C to +80°C, temporarily higher
gsm substance	-	approx. 2.3 kg/m ² - approx. 3.0 kg/m ² depending on the thickness
Storage	-	cool and dry, 12 months

Hanno[®]-Protecto Plus 75

Cleaning

Skin cleansing with soap and water. Removal of adhesive residue is possible with a gasoline based cleaner. Please observe safety regulations.

Environment and disposal

Material residues can be disposed of with household waste. Local regulations must be observed.

Restriction of liability

Our General Terms and Conditions of Sales with the warranty conditions which you can refer to at **www.hanno.com**, apply. This data sheet provides non-binding information without the assurance of guarantee. The stipulated instructions for use are to be adapted to the given conditions. The user is obligated to validating the suitability and application possibility of the product by testing it himself, so as to avoid failures for which we assume no liability. The right to make technical changes is reserved.
